

Description

The MC1048 UL Listed rehab kit provides factory installed A-line terminal blocks on a single mounting plate (20.27"H x 9.375"W) that fits into any MC1048 closure. All parts and hardware required for field rehabilitation are included in the kit.

Accommodates up to 25-pair protected with a 50-pair cross-connect field, 10-pair protected with a 25-pair cross-connect field, or 50-pair protected without a cross-connect field.

For changeover with minimal service interruption, the MC1048 rehab kit can be hung on the door of the closure or placed beside it during the splicing operation.

NOTE: All standard REHAB kit configurations are listed. Ask your customer service representative about other cable combinations for special requirements.

Ordering Matrix

Stub Length (Feet)	4	=	4 feet
	12	=	12 feet
Stub Type	W	=	Filled
	blank	=	Unfilled (aircore)
Type of Protection	P	=	1304S, carbon, 200-1200V
	V	=	1304VSB, gas, Bell, 400V
Pair Count	1025	=	10 protected/25 unprotected
	2550	=	25 protected/50 unprotected
	500	=	50 protected
